Pssst...
check my work
here!

My name is Manoil Tooma, and I'm 25 years old. You can just call me Mano.

I've been a creative since I was little, which has led me to a creative career path. In 2021, I **graduated** as a **multimedia designer**, and in the winter of 2023, I earned my **BA in Design & Business**, specialized in **Visual Communication Design** from VIA C. I have **experience** with **photo/video production, branding, social media, concept/product development, and graphic design** in general.

What I can offer is a **team player** who likes to think outside the box and can work with the more fine, **detailed outlines**, but at the same time handle more **complex** tasks.

My skills are quite **versatile**, and I am very enthusiastic when it comes to tasks I don't have much experience with. **Outside of work**, I listen to a lot of music, follow various sports, and greatly appreciate experiences such as traveling and attending concerts.
